Ana-Maria Stoia

Data Analyst & QA Engineer

Analytical and detail-oriented Data Analyst and QA Engineer, passionate about transforming data into actionable insights and ensuring high software quality. With a background in statistics and economic informatics, combined with hands-on mobile testing experience, committed to data-driven decisions and building reliable digital products.

Work History

2023-03 - Current

iOS Data Analyst

Eightpoint, Bucharest

- Analyze iOS app performance metrics, user behavior, and feature usage data to support product decisions.
- Build and maintain SQL queries and dashboards to track KPIs across mobile releases.
- Create and manage dashboards in Amplitude to monitor user engagement and product analytics.
- Collaborate with product and engineering teams to define and monitor data requirements for new features.
- Identify anomalies and trends in data, reporting findings using Excel.
- Document data analysis processes and contribute to data quality improvements.

2023-03 - Current

iOS & Android QA Tester

Eightpoint, Bucharest

- Test mobile applications (iOS & Android) against functional requirements derived from Jira tickets.
- Perform regression, smoke, and exploratory testing for each release cycle.
- Verify UI components: snackbar notifications, input validation, navigation gestures, and analytics events.
- Document and track bugs in Jira with detailed reproduction steps and environment info.
- Collaborate with developers to clarify requirements and validate fixes across Android versions.

Education

2024-10 - 2026-07

Master's in Business Data Analytics

University of Bucharest, Faculty of Administration and Business

2021-10 - 2024-07
