# Ana-Maria Stoia

Data Analyst & QA Engineer

Analytical and detail-oriented Data Analyst with 3.5 years of experience in mobile product analytics and hands-on QA testing for iOS and Android apps. Background in statistics and economic informatics, with a Master's in Business Data Analytics. Experienced with SQL, Excel, Amplitude and Looker Studio, and currently completing a 9-month certified Data Analyst program at IT School to add Power BI and Tableau to my toolkit. Passionate about turning data into clear, actionable insights.

## Work History

2023-03 – 2026-08

### iOS Data Analyst

Eightpoint, Bucharest · utilities & health apps (iOS, Android, web)

- Wrote and optimized SQL queries on large datasets to extract, join and aggregate user, event and revenue data for analysis.
- Built and maintained Looker Studio dashboards and reports tracking KPIs across mobile releases, shared with product and management.
- Created Amplitude dashboards and charts (funnels, retention, cohorts) to monitor user engagement and feature adoption.
- Validated analytics event tracking in Amplitude to ensure accurate, reliable product data.
- Cleaned and analyzed exported data in Excel (pivot tables, lookups, formulas) to identify trends and anomalies and report findings.
- Analyzed app performance, user behavior and feature usage to support product decisions.
- Collaborated with product and engineering teams to define data requirements for new features.
- Automated recurring data tasks using Claude (AI), reducing manual reporting work.
- Documented data analysis processes and contributed to data quality improvements.

2026-01 – 2026-08

### iOS & Android QA Tester

Eightpoint, Bucharest

- Tested mobile applications (iOS & Android) against functional requirements derived from Jira tickets.
- Performed regression, smoke and exploratory testing for each release cycle.
- Verified UI components (notifications, input validation, navigation gestures) and analytics events.
- Documented and tracked bugs in Jira with detailed reproduction steps and environment info.
- Worked with developers to clarify requirements and validate fixes.

## Education & Training

2026-10 – Present

### Data Analyst Program (9 months, certified)

IT School, Bucharest · in progress

Hands-on training in Power BI, Tableau, Python, SQL and Excel: data modeling, data cleaning, dashboards and reporting.

2024-10 – 2026-07

### Master's in Business Data Analytics

University of Bucharest, Faculty of Administration and Business

2021-10 – 2024-07

### Bachelor of Science: Cybernetics, Statistics & Economic Informatics

Bucharest University of Economic Studies (ASE)

## Certifications

- Udemy – SQL course · Udemy – Excel course · Cambridge English Certificate

## Additional Information

- Volunteering — Faculty Association (Master's), 2024–2026: member of the fundraising team; contributed to multiple projects, building interpersonal, organizational and communication skills.
